

Universal Soil Loss Equation (USLE)

The Universal Soil Loss Equation is
NOT Current Erosion Prediction Technology.

USLE is only to be used for determining soil erodibility index (EI) when completing Highly Erodible Land determinations for the Food Security Act as dictated by the National Food Security Act Manual (NFSAM Part 511, Subpart A).

See Soil Erodibility Index for instructions.
(NFSAM Pages 511-3 and 511-4)
